

**ASX CONTINUOUS DISCLOSURE
HALF YEAR REPORT – FY2009****Thursday, 19 February 2009.****INFOMEDIA LTD (ASX:IFM)** today released its half year financial results for FY2009.

The Company's reported sales revenue for the six months was \$26,388,000 which is in line with the earnings guidance range that the Company provided the market on 21 January 2009 (Earnings Guidance). This result represents an increase of \$907,000 over the previous corresponding period. Electronic Parts Catalogue subscriptions declined 1% to 53,686 but this was offset by Superservice Menu subscriptions growth of 42% to 4,865, giving rise to a net 1% increase in total subscriptions over the previous corresponding period. This increase combined with a more favourable Australian dollar during the period gave rise to the increase in sales revenue reported between periods.

The reported net profit after tax for the six months was \$6,479,000 and exceeds the Earnings Guidance. The Company experienced increased operational expenses during the period as it continued preparations to release new products over the coming months. The Company's first half results included a net tax credit of \$727,000 which lowered the effective tax rate from the prior year to 14%. The Company anticipates the second half effective tax rate to return to historical averages.

With respect to debtors, the Company has not seen a material increase in debtor days compared to the prior corresponding period. Nevertheless, given the uncertain economic climate, the Company has taken the precautionary step of increasing its doubtful debt provision by \$630,000 for the period ending 31 December 2008.

An interim half-year fully franked dividend of 0.7¢ per share has been declared. The record date to determine entitlements to the dividend distribution is 3 March 2009 and the date on which the dividend distribution is payable will be 19 March 2009. In determining the size of the interim dividend, the Company gave consideration to its franking credit position and also the ongoing share buy-back program. The funds expensed via the share buy-back program, together with the declared interim dividend represents 60% of net profit after tax reported for the period.

The Company reconfirms that it anticipates 2009 financial year sales revenue to be between \$51 million and \$53 million and net profit after tax to be between \$10 million and \$11 million.

In addition to this report, an independently reviewed copy of the half-year financial report and the half-year Appendix 4D are available from the Company's website or from the ASX.
