MICROCAT® EPC™

SELLS OEM PARTS
AND
IGNITES EFFICIENCY

Microcat EPC is an industry leading online Electronic Parts Catalogue (EPC) that grows dealer parts sales, productivity and customer satisfaction.

- **Genuine OEM Catalogue Data**

  Parts sales accuracy – Access the latest VIN information, parts data, illustrations and pricing with automatic online updates, making for happier customers and fewer parts returns.

- **VIN-precise Vehicle Identification**

  Find the right model, the first time – Quick and accurate vehicle identification using a VIN, registration number, vehicle index or catalogue search.

- **Powerful Parts Search**

  Find the right part, the first time – Advanced search and powerful filtering features produce single part identification on 99% of searches.

- **Intuitive and Streamlined Display**

  Serve customers faster – Navigate faster, access parts data more efficiently, perform quicker interpretation and place orders instantly.

- **Rich Integration Capabilities**

  Better together – Seamlessly integrated to leading DMS systems, Microcat Messenger, collision and mechanical parts ordering systems, service quoting and eVHC.

> **" Microcat EPC boosted our parts sales by 10%. "**
