

MICROCAT[®]Market[™]

Sell more OEM parts effortlessly

Help trade customers place digital orders quickly and easily to increase parts sales.

What is Microcat Market?

Offered to independent repair shops, Microcat Market is an online parts catalogue and ordering system that helps dealers sell more OEM parts, saving time and money and reducing workshop parts returns.

Repairers accurately identify the vehicle by VIN

Search for parts by part number, description or catalogue illustrations

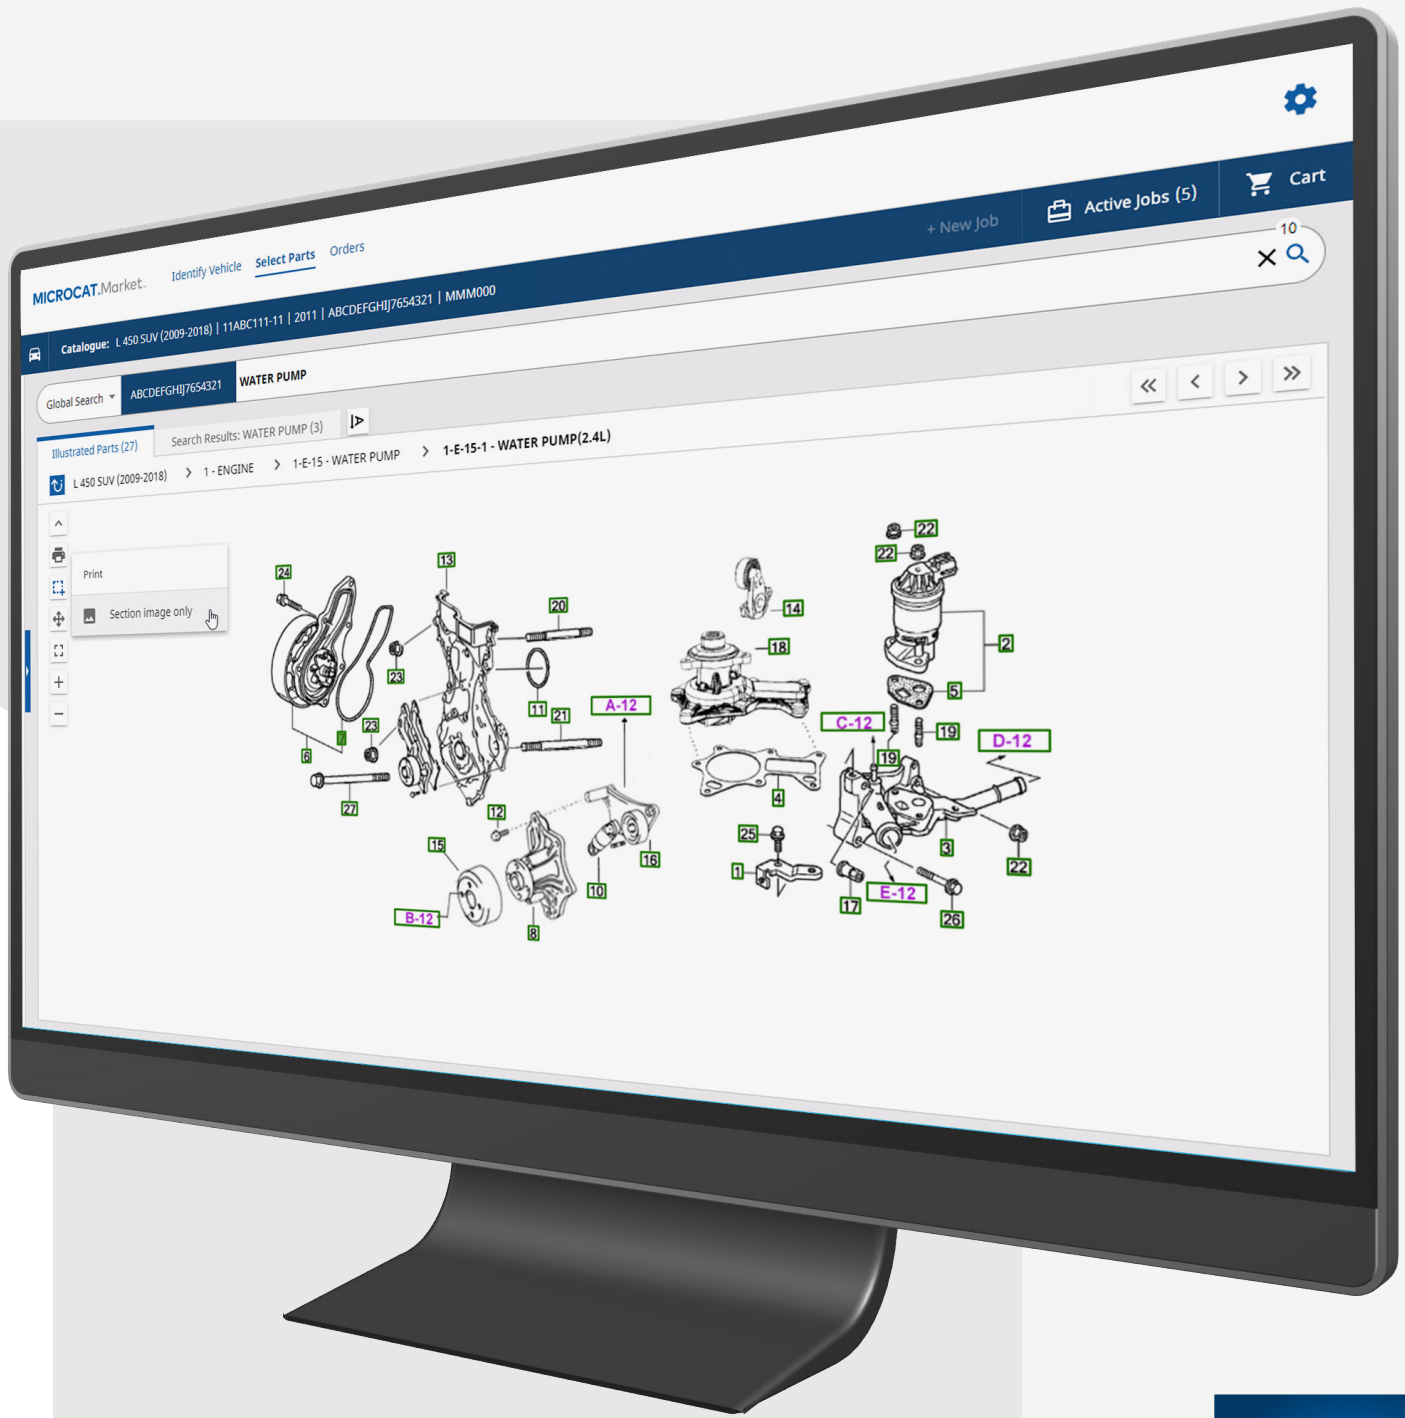

The required parts are added to an order list, and sent to the dealer

Benefits for Dealers

- Improve efficiency by receiving OEM parts orders directly in your inbox – 24/7
- Reduce part returns by empowering customers with the latest OEM parts data
- Enhance customer satisfaction with reduced time spent on the phone
- Seamless DMS integration with no need to manually key in part numbers and quantities

Benefits for Repair Shops

- Access to the latest available OEM parts data including illustrations and pricing
- VIN-specific vehicle identification reduces interpretation and ordering errors
- Send orders with 24/7 online flexibility and simple ordering process
- Vehicles are fixed right the first time, with genuine OEM parts

Ready to get started?

Then we'd love to hear from you.
